 Date of submission :

I make the following application to the committee of Showmow Racing Inc. to consider the listed variances to the guidelines of this club. It is considered that adherence to existing guidelines is not possible and the reasons for this will be listed in support of this proposal. I understand that due to the differences in expertise required to ensure the safety and reliability of modifications—that a referral may be required to a qualified engineer/specialist which may delay the time required for a response. Should a cost be involved in assessment of variances , the matter will be referred back to member as it will be at their expense should they wish to proceed.

Mower name : No.

Mower manufacture :

Model (if known) :

Date of manufacture :

Existing modifications :

SHOWMOW RACING

Area for which variance sought	Rule to which variance sought	Level of variance sought	Reason why variance required
